

# POWER CAGE SERIES

Power Cage with Pulley G315

R.R.P.

Strength

The Power Cage with Pulley is a comprehensive solution for functional free weight training in a safe environment thanks to its construction and side safety bars or spotters. This Power Cage, designed for home environments, features both high and low pulley systems, as well as a dedicated leg support, offering an exceptionally versatile training experience.

- Max. user weight: 140kg
- Weight: 100kg
- Dimensions: 215 x 113 x 227cm
- Máx. dynamic tension / load: 130kg / 360kg

## DISC STORAGE

Includes 4 disc storage racks. Allows discs weighing up to 110kg to be stored.

## LEG SUPPORT

Includes a padded leg support that allows you to perform exercises such as Bulgarian squats or use it as a leg support in combination with a bench.

## HIGH AND LOW PULLEY

Ball bearing pulleys for dynamic movements. Includes two grip bars, wide and short.

## J-HOOKS

Designed for easy bar removal, while safely locking the bar in place once the exercise is complete.
